

Urban Sketching Supply List

Here are suggested supplies. Everyone is different with what works for them. If you already have some items or paints feel free to bring them. No need to buy the whole list you can always pick up items as you see them in use.

Substrate:

Sketchbook for pencil and pen

Watercolor sketchbook for mixed ink, watercolor and gouache

Media:

Pencils at least a 2b or hb. If you plan to work in pencil only then add 4b, 6b, 2h

Charcoal Pencil

Pens (microns are great as they don't run when paint hits them)

Fountain pens are great when you want an inky washy look

Watercolors and gouache (if you want to work in paint)

Kneaded eraser

A few round watercolor brushes and possibly a few flats

Other items:

water container

Folding chair or stool

Easel if you like to work on an easel. Some folks work lite with sketchbook in their lap. It's what you are comfortable.

NOTE: Urban sketching is media agnostic. It's more about getting out with people to sketch what's around you. I will demo as many things as I can, you bring what you want to work with.
